## SECTOR BREAKDOWN (% of Investments)

\* **SEC 30-Day Yield** This calculation is based on a 30-day period ending on the last day of the month. It is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. The yield figure reflects the dividends and interest earned during the period, after the deduction of the fund's expenses. A subsidized yield takes into consideration the expenses paid by the sub-advisers and adviser.

\*\* The Gross Expense Ratio, per the Fund's Prospectus dated 10/28/2018, includes all categories of expenses before any expense reductions or fee waivers.

\*\*\* Olive Street Investment Advisers, LLC has contractually agreed, until at least October 28, 2019, to waive its management fees to the extent management fees to be paid to the Adviser exceed the management fees the Fund is required to pay the Fund's Sub-advisers. This contractual agreement may only be changed or eliminated with the approval of the Board of Trustees. Such waivers are not subject to reimbursement by the Fund.

## OUR PURPOSE

Bridge Builder Mutual Funds provide investors diversified expertise from leading asset management firms. The Funds are managed in accordance with our investment philosophy of diversification, a long term approach, and high quality investments.

## OBJECTIVE

The Bridge Builder Core Plus Bond Fund aims to provide total return (capital appreciation plus income).

## STRATEGY

The Core Plus Bond Fund's assets are allocated across different fixed-income market sectors and maturities. Most of the Fund's investments are fixed-income securities issued or guaranteed by the U.S. government or its agencies, U.S. corporate issuers, asset-backed securities, and mortgage-related and mortgage backed securities. The Fund may invest in securities issued by foreign entities, including emerging market securities. The Fund may invest in high-yield securities deemed below investment grade, also known as "junk bonds." The Fund employs a multimanager sub-advised structure.

**CREDIT QUALITY\*\*\*\*** (% of Investments)

\*\*\*\*The Fund considers investment grade securities to be those securities that are rated at or above Baa3 by Moody's Investors Service, Inc. ("Moody's"), BBB- by Standard & Poor's Corporation ("S&P"), or an equivalent rating by another nationally recognized securities rating organization ("NRSRO"). Securities that are unrated are listed as such. If a security had multiple ratings that were not identical, the highest rating was used.

**INVESTMENT SUB-ADVISERS**

Multiple sub-advisers are selected with complementary investing styles who are each responsible for investing a portion of the Fund. We select sub-advisers we expect to use for the long term, and employ an ongoing review process to ensure they continue to meet our criteria. We look for an experienced & well-resourced team, a sensible & repeatable investment process, portfolio characteristics that fit the team's investment philosophy, and a demonstrated track record of success.

**Loomis, Sayles & Company, L.P.** generally seeks fixed-income securities of issuers whose credit profiles it believes are improving. Loomis Sayles relies primarily on issue selection as the key driver to investment performance. Loomis Sayles also analyzes different sectors of the economy and differences in the yields of various fixed-income securities in an effort to find securities that it believes may produce attractive returns in comparison to these securities' risk.

**Metropolitan West Asset Management, LLC** employs a value oriented fixed-income management philosophy and an investment process predicated on a long-term economic outlook.

**Pacific Investment Management Company LLC** seeks to achieve the Fund's investment objectives by investing in a multi-sector portfolio of fixed income instruments of varying maturities, which may be represented by derivatives such as forwards, futures contracts, or swap agreements.

**T. Rowe Price Associates, Inc.** emphasizes the value of in-depth fundamental research, diversification and risk management practices. T. Rowe Price's strategy integrates top-down sector allocation with bottom-up security selection in pursuit of the Fund's investment objective.

The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The statutory and summary prospectus contains this and other important information about the investment company, and they may be obtained by calling 1-855-823-3611 or visiting [www.bridgebuildermutualfunds.com](http://www.bridgebuildermutualfunds.com). Read the prospectus carefully before investing.

**Mutual fund investing involves risk.** The value of your investment in the Fund could go down as well as up. Investing in the bond market is subject to certain risks including market, credit, interest-rate, liquidity and reinvestment risk. Investments in asset-backed, mortgage-related and mortgage-backed securities may be more sensitive to changes in interest rates, prepayments and impairment of the value of the collateral underlying the security. The Fund may invest in non-U.S dollar-denominated foreign securities (including emerging markets), which may be more sensitive to currency fluctuations, political and economic instability, differing government regulations and liquidity risk. The Fund may also invest in derivatives which could increase the Fund's volatility. Investments in lower-rated and non-rated securities presents a greater risk of loss to principal and interest than higher-rated securities. Multi-manager and multi-style management may lead to overlapping securities transactions and higher transaction expenses compared to single investment management styles. Outcomes depend on the skill of the subadvisers and adviser and the allocation of assets amongst them.

Fund holdings, sector and portfolio exposure are subject to change at any time and are not recommendations to buy or sell any security.

**Duration** is a measure of the sensitivity of the price of a fixed income security (or a portfolio of fixed income securities) to changes in interest rates.

**Bloomberg Barclays U.S. Aggregate Bond Index** is a broad base index, maintained by Bloomberg LP, and is often used to represent investment grade bonds being traded in United States. You cannot invest directly in an index.
